

## Higgins is the best choice

**Editor:**

On June 8, voters will choose a new supervisor for the 5th District. Of the four candidates, I think Pat Higgins is the best choice.

Pat, who is a fisheries and watershed scientist, has lived here for almost 40 years and he understands the needs of this district.

He favors smart growth and understands the importance of preserving agricultural land and maintaining working timber lands.

He has clear ideas on how we can create jobs, and at the same time restore the environment. As our representative on the Humboldt Bay Harbor and Recreation District, Pat has demonstrated that he is fiscally conservative. Pat has been working toward expanding our trail system, and will continue to do so as our Supervisor.

I like the fact that Pat's grassroots campaign has taken no money from special interests. His campaign is fueled by dozens of volunteers who are making direct contact with voters, and he's relying on substantive debates and interviews, aired on Humboldt Access TV and streaming, to communicate his ideas.

Please join me and vote for Pat Higgins.
